Subject: Microsoft Settlement

To:
U.S. Justice Department
Anti Trust Division

The U.S. Department has a chance to make amends for the Clinton-Reno version of a Justice Department in the case of the Microsoft settlement.

There was so much wrong in the handling and subsequent trial that it would take more than this letter to detail the unfair practices by the government. It is time to move on. Microsoft is one of the World's premier companies representing all that is best about the United States and entrepreneurship. Bill Gates and his wife have through their charitable foundations shown what separates them from the moronic politicians who have pressed this witch hunt.

The present attorney general of California, the State I reside in has chosen to lead the other State malcontents in continuing this vendetta. He did not have the courtesy to reply to my written objections.

Settle the case and lets get back to work increasing the country's technological lead.
